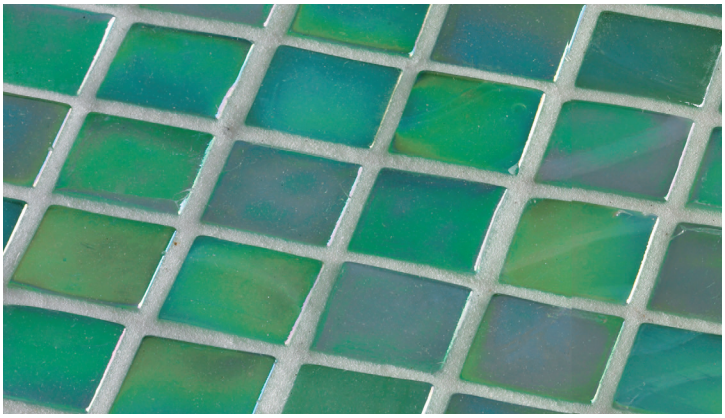
FUGANET

SPECIFIC CLEANING FOR GROUTING

ALL TYPES OF GROUTING



INDOOR USE

OUTDOOR USE

- **Extremely practical, easy-to-use packaging with ergonomic grip and spray applicator**
- **Does not damage or corrode wall tiles**
- **Does not contain acids or sodium hypochlorite**

WHAT IT'S FOR

- Thoroughly cleans grouts in ceramic tile floors and walls. Suitable for single-fired and double-fired porcelain tiles. Unsuitable only for porous surfaces treated with wax

HOW TO USE IT

No dilution required:
ready to use.

Application: Spray **FUGANET** directly onto the grouting. Leave for a few minutes then scrub with an abrasive sponge or flat brush.
Rinse after cleaning. If the grouting is very dirty, we recommend cleaning it thoroughly first with **DETERDEK PRO** diluted 1:10.

PACKAGING	COVERAGE (750 ML):
750 ml bottles with spray nozzle in boxes of 6.	**up to 850 linear metres**

Coverage rates are indicative.

WARNINGS
- Keep out of reach of children.
- Do not disperse into the environment after use.

TEMPERATURES
Storage temperature: Between 5ºC and 30ºC.
The product should be applied to materials with temperature between 5º and 30ºC.

Caution:
This product makes methacrylate surfaces dull, use with care near methacrylate baths and basins.
